

AUTOMATED METAL PROCESSING

Brake Press Operator

Automated Metal Processing (AMP) is a premier supplier of precision sheet metal components and value added services to customers throughout North America. AMP prides itself on a professional, yet fun work environment. Our new facility in Martensville, Saskatchewan offers the newest equipment, and young innovative, progressive work environment. We believe our employees are the key component to producing quality products which in turn allows us to offer our customers complete solutions for metal processing.

An opportunity to join our growing team has become available and we are currently seeking and experienced, professional and capable Brake Press Operator.

DUTIES & RESPONSIBILITIES:

- Set up and operation of Brake Press, performing first-off inspections.
- Production and prototype parts as directed by ownership.
- Performing scheduled maintenance of equipment on a regular basis.
- Working with Product Support Team to develop manufacturing methods or work instructions for new products.

REQUIRED EXPERIENCE:

- Experience in metal processing industry.
- Position requires minimum 2 years experience, ability to prepare and run complex bend setups and forming operations. This includes custom punch/die modification used in combination with other tooling (either standard or custom). Complex programming using all features of the press brake. (e.g.) Bending at angels, step bends, proper back gauge transfer between steps, delays, etc.
- Must be able to read and understand blueprint and shop drawings and geometric tolerances and how they relate to the finished part.
- Thorough understanding of flat pattern layout.
- Must be able to demonstrate the ability to check and approve first articles correctly.
- Strong organization and communication skills.
- Experience with various types of Brake Press equipment would be an asset.

ADDITIONAL SKILLS:

- Initiative to take on responsibility
- A desire to learn and grow
- Team player, driven and committed to success
- Excellent oral and written communication skills
- Attention to detail
- Possess ability to manage time efficiently
- Show strong initiative for continuous improvement and development
- Ideal candidate must be able to work independently and as part of a team
- Must be able to work effectively in a fast-paced environment
- Capability to multi-task is required

Qualified applicants please email your resume with cover letter and references to Kyle@ampmetal.com. We thank all candidates for their interest; however, only those under consideration will be contacted.
